Application for Renewal of Discharge Authorization No. 4009-01

Dear Mr. Brown:

The Discharge Authorization (DA) for Ash Grove Cement Company expires on August 16, 2006. To continue legally discharging, please submit your application for renewal no later than February 17, 2006.

If the volume of your waste has not increased and the character of your effluent has not changed from that described in your most recent application and you do not expect such changes to occur within the next five years, your renewal application may consist of just a letter. The letter should request renewal and state there has not been a change in operations.

If, however, you have either changed your discharge or expect to within the next five years, please call me at 206-263-3024 or call the Industrial Waste Program at 206-263-3000 for a new application. If you are planning to stop industrial/commercial discharge to the King County sewerage system, please notify this office that you want your DA cancelled. This notification should detail how you plan to dispose of wastewater generated by your operation and include a schedule for terminating the discharge.

King County Code 28.84.060 - Industrial Waste Rules and Regulations authorizes a fee for each DA drafted by the King County Department of Natural Resources and Parks. During 2006, the fee for a major discharge authorization is \$910. We will bill you for the fee when we receive your renewal application.

If you have any questions, please call me at 206-263-3024.

Sincerely,

Barbara Badger  
Investigator
